**Policy white paper**, identifying relevant national and international policies, frameworks, and standards and making recommendations for their future adoption and/or implementation

**Technical white paper**, listing requirements for improvements to existing infrastructure, systems, and tools and make recommendations for their future implementation

## King's Digital Lab MaDiH Phase 2

#### Phase 1 designed to scope phase 2

Defined set of M of requirements  $\rightarrow$  development of **PoC**  $\rightarrow$  gap analysis, review/reflection

Workshops  $\rightarrow$  elicitation of requirements  $\rightarrow$  set of MoSCoWed requirements

High level, focus on the *what* (functionalities) and not the *how*
